

Flexible Shaft for Dremel Machines - 225

The ideal attachment for precise, detailed work or hard to reach places.

The comfortable handpiece allows fingertip control when cutting, grinding, sanding, polishing, engraving etc.

Measuring 1070mm, the maximum allowable bend radius of 127mm allows for greater comfort and flexibility in use.

With integrated shaft lock button for quick bit changes and Quick Connect to attach to your Dremel in seconds.

Includes driver cap.
