

EHZ Pro One Handed Bar Clamp

Clamps that allow the user to secure the workpiece quickly without needing a "third hand" on those tricky jobs where the workpieces need to be held together as the clamp is positioned...

120Kg of area pressue achievable.

A simple push-button converts the clamp to a spreader.

The large pads and deep jaws [100mm] allow excellent grip to be achieved, spreading the force evenly.

Adjustable spacers can be positioned to keep the clamp an even distance from the workpiece along its entire length.

Grooves in the jaw faces help when working with round or profiled objects.

Price

150mm Capacity [410mm as a Spreader] - 3030000 (Product reference 2358-3270)	£15.94
300mm Capacity [560mm as a Spreader] - 3031000 (Product reference 2358-3271)	£18.35

450mm Capacity [710mm as a Spreader] - 3032000 (Product reference 2358-3272)	£19.99
700mm Capacity [960mm as a Spreader] - 3040000 (Product reference 2358-3273)	£22.49
915mm Capacity [1175mm as a Spreader] - 3034000 (Product reference 2358-3274)	£24.75
