

Festool CTL MIDI Dust extractor

CTL MIDI is a small, lightweight extractor suitable for a wide range of applications. A few useful details have been added to increase the versatility of the machine: for example, the automatic electronic switch-on/shut-off function and a flat filter for maximum utilisation of the filter bag capacity. The 15-litre container is perfect for sanding, routing and sawing work that generates average quantities of dust.

- Approved for dust category L
- Very compact and lightweight
- Antistatic function prevents static developing during work
- Practical store for hose and mains cable
- Attachment of Systainers via Sys-Dock
- Storage compartment for replacement filter bag
- Economical, thanks to optimal utilisation of the filter bag in the container

Main applications

- For dust with MAC values $> 1 \text{ mg/m}^3$
- Ideal for assembly work
- Integral automatic electronic switch-on/shut-off for extraction from electric power tools
- For sanding, milling and sawing work that generates medium quantities of dust
- Suitable for both wet and dry extraction
- Ideal for final clean-up

Supplied with:

- fitted filter bag
- spare filter bag in the storage compartment
- suction hose $\varnothing 27 \times 3.5 \text{ m-AS}$ with angle rotating adapter on the extractor side
- in a carton
