

## HP7 LED Torch - 360 lumens

The Coast HP7 LED Flashlight is a great size that is easy to carry, and packs the light output and runtime that is needed by those that rely on their light every day. A quick cycle switch allows you to select between a high output setting of 251 lumens or a low output of 58 lumens allowing you to choose the right level for your application. Coast's Pure Beam Focusing Optic System with Fingertip Speed Focus Control provides superior beam consistency from spot to flood, with no dark rings typically associated with focusing flashlights, and you can lock the beam focus in any position you want with our Beam Lock System. The Bulls Eye spot beam pattern gives you a great focused spot with a maximum beam distance of 196 meters (642 feet), while producing an outer ring of flood light which allows you to see a broader area to the sides. Built tough, an impact-resistant, lightweight aluminum casing resists rust and corrosion. Tested and rated to ANSI/FL1 standards, the HP7 also features an unbreakable LED and rubberized O-ring for reliable water resistance and durability. Backed by Coast's lifetime guarantee against defects in materials and workmanship.

Tested and rated to ANSI/FL1 standards by an independent laboratory.

Light output: High - 251 lumens; Low - 58 lumens

Runtime: High - 5 hours 45 minutes; Low - 10 hours

Beam distance: High - 196 meters (642 ft); Low - 66 meters (216 ft)

4 X AAA batteries (included)

Aluminum casing; Rubber rear switch

High and low output modes

Impact and water resistant

7.2 ounces (including batteries)

5.54 inch length

Diameter: Body - 1.24 inches; Bezel - 1.49 inches
