

Hip Bar 70mm Concealed Fix + Rag 55

Concealed Fixings for high quality finish

Ideal for capping single, double or triple glazed glass, acrylic and polycarbonate structures

Suitable for roof pitches 15-50 degrees

High quality supply EPDM gasket with cord, re-tained in situ by special design

So versatile for - conservatories, sky light roofing, glazed walk ways, shopping centres, swimming pools, railway and bus stations etc...

Install wet or dry - no increased costs due to wet weather construction

Maintenance friendly - damaged glazing is easily replaced - remove caps, loosen screws, replace damaged panel and tighten Capex down

RAG 55 is a high quality flexible EPDM compatible with glass, polycarbonate and acrylic sheeting

RAG 55 prevents damage to the glazing by forming a protective barrier between the glazing and the rafter
