

Paslode IM360 First Fix Nailer

The gun by which other are judged from the company that set the standard.
More professionals choose Paslode than any other brand of self contained nail gun.

Powered by an intelligent electronic fuel injection system offering unrivalled cold weather performance.

Benefits from Start & Go technology, fuel and battery gauge, quick charge, long life lithium battery and the best power to weight ratio on the market today.

From the roof to the deck, when first fixing this is the gun that you want to be using.

Features & Benefits:

Start & Go® - Innovative movement sensor means no battery discharge when not in use. Up to 25% more shots per charge than other Lithium framing tools

Fuel & Battery Gauge - Easy and fast control of your battery and fuel cell levels means you need never be caught without power on site, as the tool alerts you when down to your last 300 shots

Quick Charge, Long Life Lithium Battery - Provides up to 7,500 shots per full charge (1 hour); 6,000 shots in just 30 minutes; 200 shots in just 2 minutes even on the move

Best Power to Weight Ratio - With 105 Joules the IM360Ci provides the best power to weight ratio tool on the market, resulting in minimal user fatigue allowing you to work for longer

Best Balanced Tool - The tool feels like an extension of your arm due to the optimal balance provided by the latest Paslode gas technology

Aggressive Probe - Improved aggressive probe allows you to get into tighter angles for easier and more convenient working

Extended Cleaning Intervals - 50,000 shots = green/red blinking: tool cleaning flashes after 50,000 shots to indicate it is time to clean the tool

Easy Use Depth Adjuster - Easy tool free depth of drive adjustment

Technical Specification

Eurocode 010391
