

Fine filter dust extractor

Ideal if limited by budget or if a dedicated extractor is required for a single machine. If usage changes over time there are a wide range of accessories available to increase functionality.

The RSDE1 is a high filtration extractor designed to filter down to 0.5 microns to minimize the amount of harmful dust in the workshop. Particularly useful for fine dust producers such as saws or sanders. This is a compact but powerful machine ideal for workshops with limited space or budget.

Filtration: 0.5 micron

Air Flow: 53 litres/second

Capacity: 45 litres

Motor: 1 kW

Weight: 11 kg

Size: H620 x W530 x D360 mm
