

Benchtop Morticer RPM75

Mortice and tenons joints are the most used joints in woodwork.

The RPM75 is a simple and effective machine, ideal for use in the workshop and portable enough for use on site.

The rotating head adds to the versatility offered by this machine giving unlimited capacity, is ideal for larger work pieces such as doors and window frames.

This morticer uses a standard 3 jaw chuck and so can also be used with normal drill bits as a compact portable drill press.
