

A25R Rechargeable torch - 725 lumens

The Coast A25R is an improved and rechargeable version of their classic A25.

This torch features a competition beating 725 lumens output.

It has the same robust and easy to clean stainless steel body as the A25.

This is the torch for those professional users that expect the highest standards from the equipment that they use.

There are two brightness levels available.

Coast's Pure Beam Focusing Optic System with Fingertip Speed Focus Control means the A25 provides superior beam consistency from spot to flood and the Beam Lock System easily locks in your desired beam with a slight twist of the focusing bezel.

Powered by a rechargeable lithium-ion battery cartridge, the A25R comes supplied with two so that one can be charging while the other is in use.

There is also included a battery cartridge which allows 4 x AAA alkaline batteries to be used if charging is not possible.

The lithium-ion battery cartridges can be charged either inside or outside the torch.

Charging options are versatile as you can; plug the cable straight into a USB port in computer, attach the UK mains plug (or the EU plug if you're on holiday) and you can even charge on the go with the car charger adaptor.

Backed by Coast's 5 year warranty.

Operational Modes

BEAM OPTICS: Pure Beam Focusing

LIGHT OUTPUT (HIGH): 725 Lumens

LIGHT OUTPUT (LOW): 80 Lumens

BEAM DISTANCE (HIGH): 682 feet / 208 M)

BEAM DISTANCE (LOW): 219 feet / 67 M)

RUNTIME (HIGH): 6H 45mR

RUNTIME (LOW): 19H

LENGTH: 6.25" / 15.87cm

WEIGHT: 10.4oz / 283g

BATTERY DESCRIPTION: Rechargeable Li-Ion pack OR 4 x AAA
