

## Mini step Jaws 6025

NOVA Mini Jaws extend the potential of the NOVA chuck system

Expands into a recess between 37mm and 58mm diameter

Grips a spigot between 10.5mm and 31.5mm diameter

Hold square stock between 9mm and 28mm

NOVA Mini Jaws enrich the NOVA chuck system by extending its potential into the mini turning area. The Mini Step Jaw expands into a recess between 37mm and 58mm diameter. When gripping a spigot the range is 10.5mm to 31.5mm diameter. These jaws will also hold square stock between 9mm and 28mm. Suits both SuperNova2 and Nova G3 chucks.
