

SOVEREIGN system - 22" handle

The Sovereign system from Robert Sorby.

Beautifully designed and precision manufactured, this is a system of interchangeable handles, extensions, counterweights and collets.

With the majority of Robert Sorby's wood turning tools now available "unhandled" in versions compatible with the Sovereign handles the system offers unparalleled versatility and value.

Designed for turners who enjoy working further away from the project, this 22" version is particularly useful for deep hollow forms and is a favourite with those who use the Sovereign Ultima – the extra long handle providing fantastic support.

As well as the handle only option, there is the SOV-22S comes with the addition of two collets (SOV-C10 and SOV-C13).

Price

Sovereign 22" handle only SOV22 (Product reference 6259-10813)	£51.39
