

ANVIL 33277 Black Gothic Lever Euro Lock Set=

Black Gothic Lever Euro Lock Set

Product information

Backplate size: 9 3/4" x 1 3/4" (248mm x 44mm)

Handle Length: 4 3/8" (110mm)

Centres: 1 3/4" (47mm)

Additional information

The Euro version of the Gothic handle is designed to be used in conjunction with a Euro Sash Lock and Euro Cylinder and allows your door to be locked from inside or out. Ideal for patio doors or replacement of existing Euro handles.

The handle incorporates a strong spring mechanism, has centres of 47mm and will only work with a Euro Sash Lock (see above link).

For standard doors a Euro Cylinder of 35/35 (70mm) would suit but if your door is thicker than 50mm you will need a longer cylinder.

Made entirely from steel these beautifully hand crafted levers are not only pleasing to the eye but also comfortable to use.

Sold as a set and supplied with necessary fixing screws.

Suitable for internal or external use but maintenance instructions must be followed to preserve the finish of your product.

Finished in Black
