

75mm Long nose jaws

These Nova Long Nosed jaws have tremendous holding power both externally and internally. Internally they feature a dovetail grip around the top for holding footed bowls and other footed workpieces. In the centre is NOVA's PowerGrip offering a rock solid grip when holding spigots. These unique long nosed jaws have a 50mm rise above their mounting base resulting in a very long reach deep inside of bowls. The jaw expands into a recess between 54mm and 73mm diameter. When gripping a spigot the range is 40mm to 60mm diameter. These jaws will also hold square stock between 29mm and 50mm. Suits only SuperNova2 chuck.
