

Alukap-XR Fixing Buttons=

ALUKAP-XR fixing buttons are for securing Axiome, a multiwall polycarbonate sheet from Clear Amber. Glazing bars are the main fixing however these fixing buttons offer additional support in the centre of the sheets.

ALUKAP-XR is a weather-resistant glazing bar system from Clear Amber that sits atop rafters for a clean, attractive finish. The sturdy and durable system comes in a range of profiles and finishes, in both white and brown so you can match the rest of your building or surroundings with ease. Compatible with timber rafters, the fixings for ALUKAP-XR are concealed and made from aluminium like the rest of the system so you're assured quality and neat installation. Decorative finishing castings are also available so you can bring even more style to your system.
