

Alukap-XR Aluminium C Section=

Alukap-XR 16mm aluminium C Section is perfect for sealing the ends of Axiome 16mm multiwall polycarbonate. To create a weatherproof seal, a compatible low modulus neutral cure silicone can be applied to the inner top and bottom surfaces of the C section.

- Suitable for use with Glass or Axiome multiwall polycarbonate sheets
- Long lasting aluminium finish
- Metal profile helps provide rigidity to reduce wind deflection in glazing sheets.
- Can be used to protect the ends of Axiome multiwall polycarbonate
