

Axgard-MSR 3mm Mirror Flat CNC Edge Finish=

Axgard®-MSR is revolutionising the market when it comes to an unbreakable mirror that is manufactured with a scratch resistant surface. However at Clear Amber we have introduced new additional steps in our manufacturing process to offer extra protection to these Axgard®-MSR mirrors.

With our new packaging system, Clear Amber have added an individual packing layer for every mirror to ensure separate protection for all Axgard®-MSR mirrors during distribution and on site transportation.

In addition Axgard®-MSR mirrors now have a protective film on the reverse side to assist protection of the mirror backing on site and prior to installation.
