

Modular tool rest system - STEM 3 x 1"

The modular tool rest system comprises various stems, crossbars and platforms and enables the turner to build up a collection of tool rests without going to great expense.

Stems are available in ½", ¾", 1", 25mm, 28mm and 30mm diameters to fit most popular lathes. The same stems are compatible with the Precision Boring System.

*** Generic image! Actual Stem may differ from image shown. ***
