

ibra bathroom el13sc=

The Ibra Door Handle EL12 is part of the Carlisle Brass Designer Range of door handles. It has a contemporary and popular design, with a nicely shaped lever handle that curves inward slightly in the centre to offer easy and comfortable grip and this smoothly shaped lever really complements the rounded backplate. The backplate has four visible screw fixings and is available with backplates versions for non-locking, UK lock, Euro cylinder lock or bathroom locking applications.

Supplied in PAIRS complete with spindle and screws.
