

Primed White Range - Screwless Plate

Designed to enable total colour co-ordination of decor schemes, the front surface of these primed plates can be coloured to meet the specific requirements of users, architects and interior designers.

The primed white ranges are supplied in Grid format so that the front plates can be painted separately and then fixed to the electrical component.

This screwless plate is supplied with concealed fixings. Of approximately 3mm projection, the primed white front plate clips onto the special grid supplied.

It is recommended that the primed plates are spray painted for a smoother finish, however paint can also be applied with brush or roller.

Sizes:

Single: 86 x 86 mm

Double: 86 x 147 mm

Price

YPW.500.W - 1 Gang Switch (20 Amp) (Product reference 9471-28164)	£21.78
