

Anvil 91937 - Polished Bronze Rim Cylinder Pull

This pull should be fitted behind the cylinder of a night latch to assist in pulling the door closed.

The pulls come without screw fixings but they will use the force of the night latch to hold firmly in place. There is also a pin located on the back to help stop any rotational movement.

Finish: Polished Bronze

Overall Size: 81mm x 50mm

Backplate Size: 53mm x 50mm

Projection: 26mm

Plate Thickness: 5mm
