

shallow pan CSK single thread gimlet tip for UNreinforced frames

These multi use screws ar particularly useful for attaching friction stays with countersunk holes to PVCu frames.

A stainless steel version is available and is recommended to be used where there is a corrosive environment.

Price

4.3 x 20mm carbon steel shallow pan, countersunk head per 1000 (Product reference 11038-29140)	£7.14
