

Aktiv Original 90L wheelbarrow builders barrow, also spares, please

Original

90 LTR HEAVY DUTY

The Haemmerlin ORIGINAL is the UK's best selling 90 Ltr wheelbarrow.

This is the evolution of the first Green wheelbarrow that Haemmerlin introduced to the UK nearly three decades ago. You cannot go wrong with this wheelbarrow!

The Original comes with a 90 Ltr Green epoxy powder coated tray with a "European" pan style design. The tray is strong with side ribs for additional strength plus double shifted edges for extra robustness and safety reasons.

Equipped with the Integral frame, a strong rigid one piece tubular frame made out of thick steel with a tipping bar for easy unloading. The front tray supports strengthen the chassis of the wheelbarrow.

There are 3 wheel options: pneumatic, puncture free and solid. The Bi-material handle grips give a comfortable feeling and are slip resistant.
