

Pro-Tek SuperNOVA2 chuck bundle

From the innovators of the original woodturning chuck, the next generation of woodturning chucks.

The new Pro-Tek series self centering chucks and jaws deliver the next generation of innovation in woodturning.

The new and improved PRO-TEK SuperNOVA2 chuck is an upgraded version of the incredibly popular NOVA SuperNOVA2 chuck. Each chuck body is finished with a high-quality nickel coating for a rust-resistant surface.

The powerful gearing grip delivers tremendous slide holding power giving solid, vibration free performance, every time you turn.

The PRO-TEK series of chucks are compatible with the same accessory range as other NOVA Chucks, and feature premium upgrades including:

Rust resistant nickel plating, ideal for turning green wood.

Stronger and more versatile 50mm/2" PRO-TEK Jaws with an improved dovetail AND serrated profile for maximum control. The unique woodworking dovetail profile pulls the project into the chuck and holds round and square blanks more firmly.

Precision laser etched jaw numbering allowing ease of jaw and slide alignment, positioning and change out.

Upgraded 6-point star fasteners exerting more torque with ease, offering better holding power and minimizing strip out for longer life.

Jaw fastening wrench upgraded to T-bar handle (from hex wrench) for reduced stripping; and enabling quicker tightening of screws which are easier on hands.

Intuitive clockwise scroll rotation for ease of use.

CNC precision machined for unparalleled tolerances and accuracy.

Fully sealed indexing backing plate reinforced with stranded glass fibers for extremely long life in tough conditions.

Powerful geared grip delivers tremendous slide holding power.

Copper-infused, precision-cast jaw slides for effortless movement and resistance to wear and tear.

Single-handed operation offers fast and convenient mounting for your project: quicker setup equals more time to turn.

Captured pinion and ball nose hex wrench with large, easy grip handle allows unique tilt-away action especially handy when working with larger workpieces.

Rotation arrow for easy reference and fast opening and closing action.

Auto safety stop feature to keep jaw slides from protruding past the chuck body.

Jaw mounting profile is cross-compatible with all NOVA chucks.

NOVA's Spindle Adaptor system — fit your NOVA insert chuck to various lathe spindle threads.

Safe Lock woodworm screw included for fast mounting of rough material.

Free NOVA microfiber workshop towel (11.5"/29.5mm x 10.5"/27.5mm) to help keep your chuck and jaws well maintained.

6 Year Full Replacement Warranty — Best in Market!

Specifications

Recommended for lathes from 350mm/14" to 508mm/20" diameter swing. Diameter 98.5mm/3.84", height 48mm/1.87".

PRO-TEK Jaws (50mm/2") for projects up to 310mm/12" and up to 150mm/6"; length spigots - included.

24 Division Index built into the backing plate design.
