

# Pro-Tek G3 chuck

The new and improved PRO-TEK G3 chuck is an upgraded version of the popular NOVA G3 chuck. The chuck body is finished with a high-quality nickel coating for a rust-resistant surface. This means that the G3 chuck is particularly suitable for wet wood turning. The powerful gearing grip delivers tremendous slide holding power offering solid, vibration free performance, each time you turn.

The PRO-TEK series of chucks are compatible with the same accessory range as other NOVA Chucks, and feature premium upgrades including:

- Premium rust resistant nickel plating, ideal for turning green wood.
- Stronger and more versatile 50mm/2" PRO-TEK Jaws with an improved dovetail and serrated profile for maximum control. The unique woodworking dovetail profile pulls the project into the chuck and holds round and square blanks more firmly.
- Precision laser etched jaw numbering allowing ease of jaw and slide alignment, positioning, and change out.
- Upgraded 6-point star fasteners exerting more torque with ease, offering better holding power and minimizing strip out for longer life.
- Jaw fastening wrench upgraded to T-bar handle (from hex wrench) for reduced stripping; and enabling quicker tightening of screws which are easier on hands.
- Intuitive clockwise scroll rotation for ease of use.
- CNC precision machined for unparalleled tolerances and accuracy.
- Powerful geared grip delivers tremendous slide holding power.
- Copper-infused, precision-cast jaw slides for effortless movement and resistance to wear and tear.
- Single-handed operation offers fast and convenient mounting for your project: quicker setup equals more time to turn.
- Rotation arrow for easy reference and fast opening and closing action.
- Auto safety stop feature to keep jaw slides from protruding past the chuck body.
- Jaw mounting profile is cross-compatible with all NOVA chucks.
- NOVA's Spindle Adaptor system - fit your NOVA Insert chuck to various lathe spindle threads.
- Safe Lock woodworm screw included for fast mounting of rough material.
- Upgraded chuck key with sliding T-bar handle.
- Free NOVA microfiber workshop towel (11.5"/29.5mm x 10.5"/27.5mm) to help keep your chuck and jaws well maintained.

6 Year Full Replacement Warranty - Best in Market!

## Specifications

Chuck recommended for 10" to 16" lathes. Diameter 88.5mm/3.45", height 44mm/1.72".  
PRO-TEK Jaws (50mm/2") included best for projects up to 310mm/12 1/4"; bowl and up to 150mm/6 3/4"; length spigots.

Insert chucks require an insert (sold separately).
