TIMCO bathroom & sanitary silicone contains powerful antifungal compounds to prevent mould growth. Typically used un areas of high humidity. Provides a long lasting, flexible and watertight seal that is ideal for domestic or commercial applications. Adheres to most non-porous surfaces without the use of primer and gives a clean and professional finish.

- Neutral Curing and very low odour
- High elasticity
- Excellent adhesion without primer on most substrates
- Excellent resistance to UV, water and weather
- Non-corrosive towards metals
