

Dual colour 560 lumens head torch RL10

Battery Type 3 x AAA Alkaline Batteries or 1 x ZX350 (Not Included)

Beam Distance (High) 101 ft / 31 m

Beam Distance (Low) 29 ft / 9 m

Included 3 x AAA Alkaline Batteries

Light Output (High) 560 Lumens

Light Output (Low) 55 Lumens

Runtime (High) 2 h

Runtime (Low) 14 h

WEIGHT (INCL BATT) 4.4 oz. / 126 g

Adjust light intensity according to your task. With Coast's Variable Light Control technology, the RL10 headlamp puts responsive lumens-control at your fingertips. A dial on top of the light body allows you to gradually increase or decrease light output, peaking at 500 lumens from the white chip on board (C.O.B.) LED array. To prevent "night-blinding," an anti-glare red LED option makes it easy to read in the dark or navigate with less reflection.

The battery housing located at the back of the non-slip head strap. The torch can be powered by three AAA alkaline batteries (included) or can be upgraded to operate on a COAST ZITHION-X™ rechargeable battery (sold separately).

A rear-facing safety signal on the back of the battery housing shines in solid red or flashing red with its own on/off switch so that co-workers, passersby, or others can spot you easily in the dark.

Manufactured using top-grade materials, the RL10 is IP54 water-resistant and dust-resistant and backed by a lifetime warranty.
