

Fat Max - "Tamperproof" Torx Driver

Stanley's "Fat Max" range of Torx screwdrivers have a pin recess in the working end, meaning they can be used with either regular or "tamperproof" Torx head fixings.

The ergonomically contoured handles are directly moulded onto a chrome-vanadium steel shaft with soft grip pads for comfort and control.

The working ends are hardened for durability and coated for grip.

Price

TX 10, 75mm shaft (Product reference 1679-2173)	£3.46
TX 15, 75mm shaft (Product reference 1679-2174)	£3.88
TX 20, 100mm shaft (Product reference 1679-2175)	£4.33
