

Ovolo/Rounding-Over Cutter 46/130

Radius 6.3mm

Cutting Depth 13mm

Diameter 25.4mm

With alternative bearing

Self-guiding cutters for rounding over edges do not require a side fence.

They are supplied with two bearings.

Use the larger bearing for a round-over.

If the cutter is lowered, a top quirk can be produced.

A full round/bullnose for stair treads can also be produced by taking a second pass from the opposite side of the workpiece.
