

Diamond Bench Stone - 6" x 2"

These diamond stones are ideal for putting a razor edge onto plane irons, chisels, knives, etc

The surface measures 6" x 2" and just a few drops of water are needed to act as a cutting lubricant, making clean-up a much easier process than when using oils.

The diamond surface will outlast traditional water and oil stones by many times, and wears much more evenly.

Price

Extra coarse, Black - W6 XP (Product reference 2362-3275)	£47.36
Coarse, Blue - W6 CP (Product reference 2362-3276)	£47.36
