

Clifton 420 Shoulder Plane 20mm wide

The Clifton 420 is machined from quality grey iron casting, precision ground on the sole and sides.

The lever arm is made from malleable iron and fits snugly into the body of the plane.

The cutting iron fits snugly onto the machined pads and can be finely adjusted by means of a screw.

Cutter width: 3/4" [20mm] High quality oil hardened steel 59-61 Rockwell 'C', cutting edge ground to 25° primary and 30° secondary.

Body length: 8" [200mm]
