

# Osmo Wood Protector

Osmo Wood Protector is an unique preservative wood wax primer. It is based on natural oils and waxes and produced entirely without biocides and therefore absolutely safe for indoor use. Osmo Wood Protector is extremely water-repellent. This unique product offers - without employing biocides - the ideal possibility to protect indoor (and also outdoor) wood when there is a danger of blue stain and mildew i.e. pine and spruce floors and panelling in rooms and areas with high humidity and high temperatures which particularly further the growth of these wood pests.

Osmo Wood Protector is thin bodied and can therefore also be applied by dipping.

If possible it should be applied on all sides of the wood and requires a finishing coat within 7-10 days.

Product based on natural oils and waxes

Osmo Wood Protector is based on natural vegetable oils and waxes. Natural oils and waxes penetrate deeply into the wood, keeping it elastic and healthy, and preventing it from getting dry and brittle.

Shrinking and swelling are reduced. The wood is allowed to breathe. Moisture can evaporate.

Health and Environment

Osmo Wood Protector does not contain biocides nor preservatives. It is safe for man, animal and plant when dry and in compliance with German DIN 53 160 (fast to perspiration and saliva) and EURO Norm EN 71 (suitable for children's toys). Test certificates available upon request.

The principle of Osmo to manufacture and supply only products which are safe and environmentally friendly during production as well as for application resulted in the successful certification according to DIN EN ISO 9001:2000 (quality management) and DIN EN ISO 14001 (environmental management) by the TÜV (Technical Control Board) Rhineland.

Osmo Wood Protector uses

All interior wood, especially floors made from wood tending to attract blue stain (i. e. pine), window frames, wood in bathrooms etc.

Outdoor wood where a biocidefree impregnation is particularly desired: children's playground equipment, sandpits etc.

Colour shade

No. 4006 Clear
