

Moldex - Bitrex Fit Test Kit 0103

Each kit is suitable for carrying out multiple tests and comes packaged in their own sturdy case. The Fit Test Kit contains everything needed to implement a robust fit testing program and includes simple step by step instructions on the procedure and current legislation. The COSHH Regulations and the associated Approved Code of Practice recommend that the initial selection of tight fitting facepieces should include a fit test. This is to ensure that the selected RPE has the potential to provide adequate protection for the wearer.

1 Hood, 2 Nebulizers, 1 Fit test CD, 1 x 50ml Bitrex™ Sensitivity Solution1 x 50ml Bitrex™ Test Solution
