

Era Knob sets

The ERA Range of Door Knob Sets consist of Entrance, Privacy, Passage and Dummy functions, which are designed to meet all customer requirements. Easy to install, each set is supplied with fitting instructions and templates. Tubular latches are adjustable to either 60mm or 70mm.

The locks available in this range can be used in different environments, which means they are suitable for both commercial and domestic applications.

The ERA Entrance Lock has been designed for applications on front and back doors and can be locked from either inside or outside.

The ERA Passage Door Knob is suitable for internal doors and as it is a non-locking knob set, it allows free access at all times.

For bathroom and bedroom use, the external knob on the ERA Privacy Lock has an emergency release, combining safety and privacy.

The ERA Dummy Door Knob is suitable for internal doors and as is a non-locking single door knob, permanently fixed to the door and to be used in conjunction with a Tubular Roller Latch.
