

Drill Press Vice - 3 3/4" (95mm) capacity

Larger than it's little brother the DPV3, not quite as hefty as the big DPV5. Like all Record Power drill press vices the DPV4 is manufactured from fine grey cast iron, machine faced and with rolled acme threads for smooth and quick operation.

This drill vice provides value. With generous jaw capacities and v slots to help cope irregularly shaped work this vice will cope with the majority of clamping tasks that the capacity will allow.
