

## Woka - Wood Lye 2,5L - Softwood

Softwood Lye is used for lye priming of unfinished or freshly sanded interior woodwork such as floors, stairs, furniture, and panels.

- •Prevents yellowing process of the wood
- •Preserves the light colours of the wood
- •Requires after-treatment with oil, lacquer or soap
- •Contains white pigments and is only suitable for softwood
- •Certified by IBR
