

HP7R rechargeable torch - 300 lumens

The Coast HP7R rechargeable LED torch has a beam distance of up to 352 metres, making it an excellent duty light for all types of tactical, rescue, and law enforcement professionals.

A quick cycle switch allows you to select between a high output setting of 300 lumens, a high powered strobe mode, or a low output of 30 lumens. Coast's long range focusing optic system with speed focus control provides superior beam consistency from spot focus through to an ultra-wide flood beam with literally no dark spots, rings or blemishes.

The HP7R is powered by a rechargeable lithium-in battery cartridge and also comes supplied with a spare so that one can be charging while the other is in use, or both can be charged up ready for a trip where charging may not be possible. Also included is a battery cartridge with the ability to house 4 x AAA alkaline batteries, so if you run out of charge in both lithium-ion cartridges you will always have a back up.

Also included in the kit is a mains charger adaptor, car charger adaptor, USB charging cable, a heavy-duty carry pouch, a 360 degree belt/pocket torch holder and a wall mount.

Backed by Coast's 5 year warranty.

Beam optics: Long range focusing

Light output (High): 300 LUMENS

Light output (Low): 30 LUMENS

Beam distance (High): 1154 FT / 352 M

Beam distance (Low): 364 FT / 111 M

Runtime (High): 7Hrs

Runtime (Low): 33Hrs

Length: 6.125" / 15.55cm

WEIGHT: 7.20z / 204g

Battery options:

Li-Ion pack OR 4 x AAA
