

Polysteel 200 hand held torch - 250 lumens

Coast's Polysteel 200 is a robust LED torch with professional quality specifications.

It has stainless steel core to protect the inner components.

The Polysteel 200 is impact resistant from drop heights up to 3 metres.

The overall weight of the torch is reduced by using a lightweight polymer for the outer casing.

There are three brightness levels, which are cycled through using the rear tail switch, allowing you to choose the right level for your application.

Coast's Pure Beam Focusing Optic System provides a beam range of up to 121 metres, and the ultra view flood beam gives a consistent circle of light up to 3 metres in diameter at a distance of 1.8 metres.

Changing between spot to flood is easily achieved using the twist focus control in the head of the Polysteel 200.

Powered by 3 x AAA alkaline batteries, the Polysteel 200 is fully waterproof to IPX8 standards up to a depth of 3 metres for 6 hours.

Backed by Coast's 5 year warranty.

Beam optics: Pure Beam Focusing

Light output (High): 250 Lumens

Light output (Low): 26 Lumens

Beam distance (High): 396ft / 121m

Beam distance (Low): 121ft / 37m

Runtime (High): 3Hrs 30mins

Runtime (Low): 35hrs

Length: 5.0" / 12.7cm

Weight: 4.10z / 116g

Battery requirement: 3 x AAA
