

HL7R Rechargeable head torch - 240 lumens

The Coast HL7R rechargeable focusing LED head torch features adjustable focusing and controllable brightness.

The twist-focus bezel allows the user to go from spot to flood quickly. The bulls-eye spot beam allows a maximum beam range of 104 metres.

The brightness control wheel housed on the battery pack of the HL7R, adjusts the the light output between 4 lumens and 240 lumens.

The large power switch and easy-grip focus bezel make it easy to activate the light and adjust the beam focus - even while wearing gloves.

Charging the HL7R is easy. Using the included micro USB cable it can be charged either straight from a computer USB port, or with the included adaptors it can be charged via the mains in the UK or EU.

Helmet clips are included making the HL7R compatible with the majority of hard hats.

Beam optics: Pure Beam Optics
Light output (High): 240 Lumens
Light output (Low): 4 Lumens
Beam distance (High): 341ft / 104m
Beam distance (Low): 42ft / 13m
Runtime (High): 1Hr 30mins
Runtime (Low): 40Hrs
Weight: 4.4 Oz / 124g
Battery requirement: 3 X NI-MH
