

Luma

The Frelan Hardware JSS68 Luma door handle is a satin stainless steel door handle on backplate with a contemporary rectangular backplate that has slightly rounded edges and a long and straight modern lever, made from Grade 304 stainless steel as part of Frelan Hardware's new range of stainless steel lever door handles and fixings.

There are four handle options to choose from; lever latch, lever lock (standard UK), Euro lock or bathroom. The lever latch option is for use on non-locking doors and features a simple, plain backplate. The lock option is for doors that lock with a key and features a keyhole cut out on the backplate and the bathroom option has a turn and release on the backplate for privacy.

Supplied in PAIRS complete with spindle and screws.
