

Flush Pull - SAA 90x40mm

FRELAN BUDGET CONTRACT ALUMINIUM FLUSH PULL RECTANGULAR J1408

This inset handle has a simple, yet contemporary look, matched with a smooth satin aluminium finish. This type of flush pull handle is most commonly used on sliding wardrobe and cupboard doors; set flush into the door it is low profile, streamlined, stylish and neat in finish. The anodised aluminium has a satin finish. Basic and functional, often used on council projects. Ideal for contract work. This flush pull handle has four countersunk holes for easy fixing.

Supplied in SINGLES complete with fixings.
