

Orbit 22mm grade 304 lever on rose

A stylish and modern stainless steel door handle on rose, it has a 22mm diameter tubular shaped lever. This lever handle curves right back in towards the door, a 'return to door' design which allows the hand to be encircled securely by the handle and avoids clothing being caught on the handle during use for added safety.

Made using grade 304 stainless steel and are tested to 200,000 cycles ensuring great durability, suitable for high frequency of use, i.e. in busy office buildings.

Supplied in PAIRS complete with fixings.
