

# SOVEREIGN system - 16" handle

The Sovereign system from Robert Sorby.

Beautifully designed and precision manufactured, this is a system of interchangeable handles, extensions, counterweights and collets.

With the majority of Robert Sorby's wood turning tools now available "unhandled" in versions compatible with the Sovereign handles the system offers unparalleled versatility and value.

Originally designed to address the demand for flexible handle lengths and provide alternative and practical tool storage options, the Sovereign has become a woodturning legend and industry benchmark.

Its softex nonslip grip provides excellent comfort and stability, while four easily interchangeable collets ensure the majority of Robert Sorby's vast turning tool range fit this agile system.

Equally at home providing added comfort when stretching to the bottom of long vases or adding that stability often required with many turning techniques. Its length provides that added leverage and additional support. Probably the most popular Sovereign handle.

As well as the handle only option, there is the SOV-16S comes with the addition of two collets (SOV-C10 and SOV-C13).
