

Modular tool rest system - STEM 5 1/2" x 30mm

The modular tool rest system comprises various stems, crossbars and platforms and enables the turner to build up a collection of tool rests without going to great expense.

Stems are available in 1/2", 3/4", 1", 25mm, 28mm and 30mm diameters to fit most popular lathes. The same stems are compatible with the Precision Boring System.
