

Aged Brass Elmore Concealed Mortice Knob Set 83864=

Product information

Knob Size: Ø56mm

Projection: 70mm

Rose Size: Ø58mm

Spindle Size: 8mm

Additional information

A concealed set of unsprung solid mortice knobs, reproduced from a classic Regency. As with the original, this door knob is cleverly designed and screwed to the door with a concealed baseplate, finished with an elegant threaded brass rose that conceals all fixing screws.

The simplicity of this design makes the door handle suitable for many property types.

Our unlaquered brass finish accentuates the small amount of detail to the knob and is highly polished for an elegant finish. These knobs will tarnish in time as part of the ageing process but can be polished time and time again if you want to achieve a high sheen.

Suitable for Mortice only. Not for use with Rim locks. Please note this product is also available in Polished Nickel.

They have 8mm x 140mm spindle to take adjustment for various door thickness.

For best results the centre of the knob should be a minimum of 3" from the edge of the door. Heavy Duty latches 4" or 5" are recommended for maximum efficiency.

Supplied with necessary fixing screws
