Additional information

Our extensive selection of door knockers suit a variety of doors from timber, composite, upvc and aluminium offering both traditional and contemporary designs.

Our art deco range is forged from solid brass. The different elevations highlight all of the hand finishing that is carried out in our factory. A perfect design choice for external doors with matching products available.

The unlacquered brass achieves a timeless elegance, highly polished on all surface areas but aged to highlight the detail and design. This will tarnish in time as part of the ageing process but can be polished time and time again if a natural sheen is desired.

Designed to match our art deco centre door knob to create a uniform feeling on your front door.

Fixed to your door using a bolt-through fixing for the knocker and strike plate, which is finished with a small feature knob on the internal side of the door.

Supplied with matching 110mm stainless steel threaded bolts which provides a bolt-through fixing.
