

Alukap-SS High Span Cap*=

The Alukap®-SS High Span Cap provides a perfect capping profile for the upper and lower ends of the Alukap®-SS beam. This Alukap®-SS High Span Cap rests on to the Alukap®-SS Wall Plate at the Upper end and the Alukap®-SS Eaves Beam at the lower end of the canopy or roof. The intersection of this Alukap®-SS High Span Cap with the Eaves Beam or Wall Plate suits pitches from 0.25 degrees up to 25.00 degrees.

- Spans up to 5m between supports
- Completely hidden glazing fixings
- Suits almost any thickness of glazing sheet
- Excellent long-lasting powder-coated aluminium finish
- Won't warp like plastic glazing bars
- Can be used with Glass or Plastic glazing sheets
- Supplied with Alukap-SS gaskets, screws and endcap
- Quick and easy to install
