

Alukap-XR 6mm Aluminium H Section 4.8M MILL FINISH ONLY=

Alukap-XR 6mm aluminium H section is ideal for joining two sheets of Axiome 16mm multiwall polycarbonate together. To create a weatherproof seal, a compatible low modulus neutral cure silicone can be applied to the inner top and bottom surfaces of the H section.

- Suitable for use with Glass or Axiome multiwall polycarbonate sheets
- Long lasting aluminium finish
- Metal profile helps provide rigidity to reduce wind deflection in glazing sheets.
- Can be used to join and seal ends of Axiome multiwall polycarbonate
