

# Texturing Tool 310H 310S

The unique Robert Sorby Texturing Tool (310H) is a particular favourite of Woodturner Tracy Owen, who has won many prizes for his textured bowls. The RObert Sorby Texturing Tool allows every woodturner produce their own interpretations of those effects and give their work the added value and individuality which these effects bring.

The Texturing Tool enables the turner to alter the visual and tactile qualities of a work piece by creating striations, whorls, an orange peel effect and more. Let your imagination run wild.

Fitted with an interchangeable cutter, the Texturing Tool is just as effective on soft as on hard woods - although the result can be markedly different. The Robert Sorby Texturing Tool not only brings turned pieces to life, it gives hours of pleasure.
