

## texturing cutter 350/0

The Robert Sorby Texturing Cutter is a multi-toothed cutter designed to allow the user to create a variety of textures and patterns. One of a family of five cutters for the large texturing and spiralling tools.

### Sharpening:

Use a diamond file or honing stone on both bevelled faces. To gain best results and increase the longevity of the cutter this simple procedure should be done little and often.

Sharpening can be achieved with the cutter mounted on the tool.

### Related Products:

This cutter is designed for use with the following tools:

Spiralling Tool (320H, 320S, 330H, 330S)

Texturing Tool (310H, 310S)
