

Micro Spindlemaster 13mm 879 879H

A miniature version of its versatile big brother – the micro Spindlemaster is the perfect tool to create smooth finish on pens to reduce the amount of sanding required.

It can also be used to plane, bead, cove and trim end grain on any spindle work.

It is easy to use and easy to sharpen, and like the larger version, the polished back bevel helps to produce a high quality finish. Delivers exceptional results on all timbers.

Two versions are available. One with fitted handle and one without a handle.

*** By purchasing this product, you are confirming that you are AGED 18 or over and that the person receiving the delivery is also over 18. Please note that we do occasionally ask for proof of age. ***
